

Heavy industry
is looking for a
« Project Manager - PMO »
Reference EC829

Do you want to be part of shaping the future of green, carbon-free steel?

COMPANY

The company is a leader in the field of steel. Currently, it is looking for a Project Manager - PMO.

POSITION

The Project Manager manages key client projects. Project management responsibilities include the coordination and completion of projects on time within budget, quality, and scope as well preparing reports for upper management regarding the status of projects.

Duties and Responsibilities :

The Project Manager will:

- Assist in the definition of project scope and objectives, involving all relevant stakeholders and ensuring technical feasibility
- Coordinate internal resources and third parties for the perfect execution of projects
- Ensure that all projects are delivered on-time, within scope, quality, and budget
- Ensure resource availability and allocation
- Develop a detailed project plan to monitor and track progress
- Manage changes to the project scope, project schedule and project costs
- Measure project performance, specifically to analyze the successful completion of short and long-term goals
- Report and escalate to management while needed

and:

- Manage the relationship with all stakeholders
- Perform risk management to minimize project risks
- Create and maintain comprehensive project documentation
- Use and continually develop leadership skills
- Perform other related duties as required by the client/project
- Lead until smooth transition to operation is fulfilled

PROFILE

- Proven working experience of at least 5 years in investment project management (from initiation to completion) is a must
- Bi-lingual (French and English, minimum B2 level) is a must
- Proven experience in a heavy or semi-heavy industrial environment is a must
- Excellent client-facing and internal communication skills
- Excellent written and verbal communication skills
- Solid organizational skills including attention to detail and multitasking skills
- Strong working knowledge of Microsoft Office (including MS project)
- Knowledge of steel industry processes is a plus
- Knowledge in the fields of energy efficiency and/or sustainability is a plus
- Project Management Professional (PMP) / certification is a plus

OFFER

The company offers a permanent contract and a stable and rewarding job.

APPLY
